Bridgeport Prospers at the United Way of Coastal Fairfield County

Bridgeport, Connecticut

unitedwaycfc.org/bridgeportprospers

(New Website Under Construction!)

We started with data...

- ❑ 14% of 5th graders proficient in math
- ❑ 24% of 3rd graders reading at level
- ❑ 3 in 10 entering K school ready
- ❑ **75% of three-year-olds enter Head Start BEHIND (2014; 2017)**
- ❑ 21% no or inadequate prenatal care
- ❑ 70% of the city's 1800-2000 yearly births Medicaid funded

What if.....

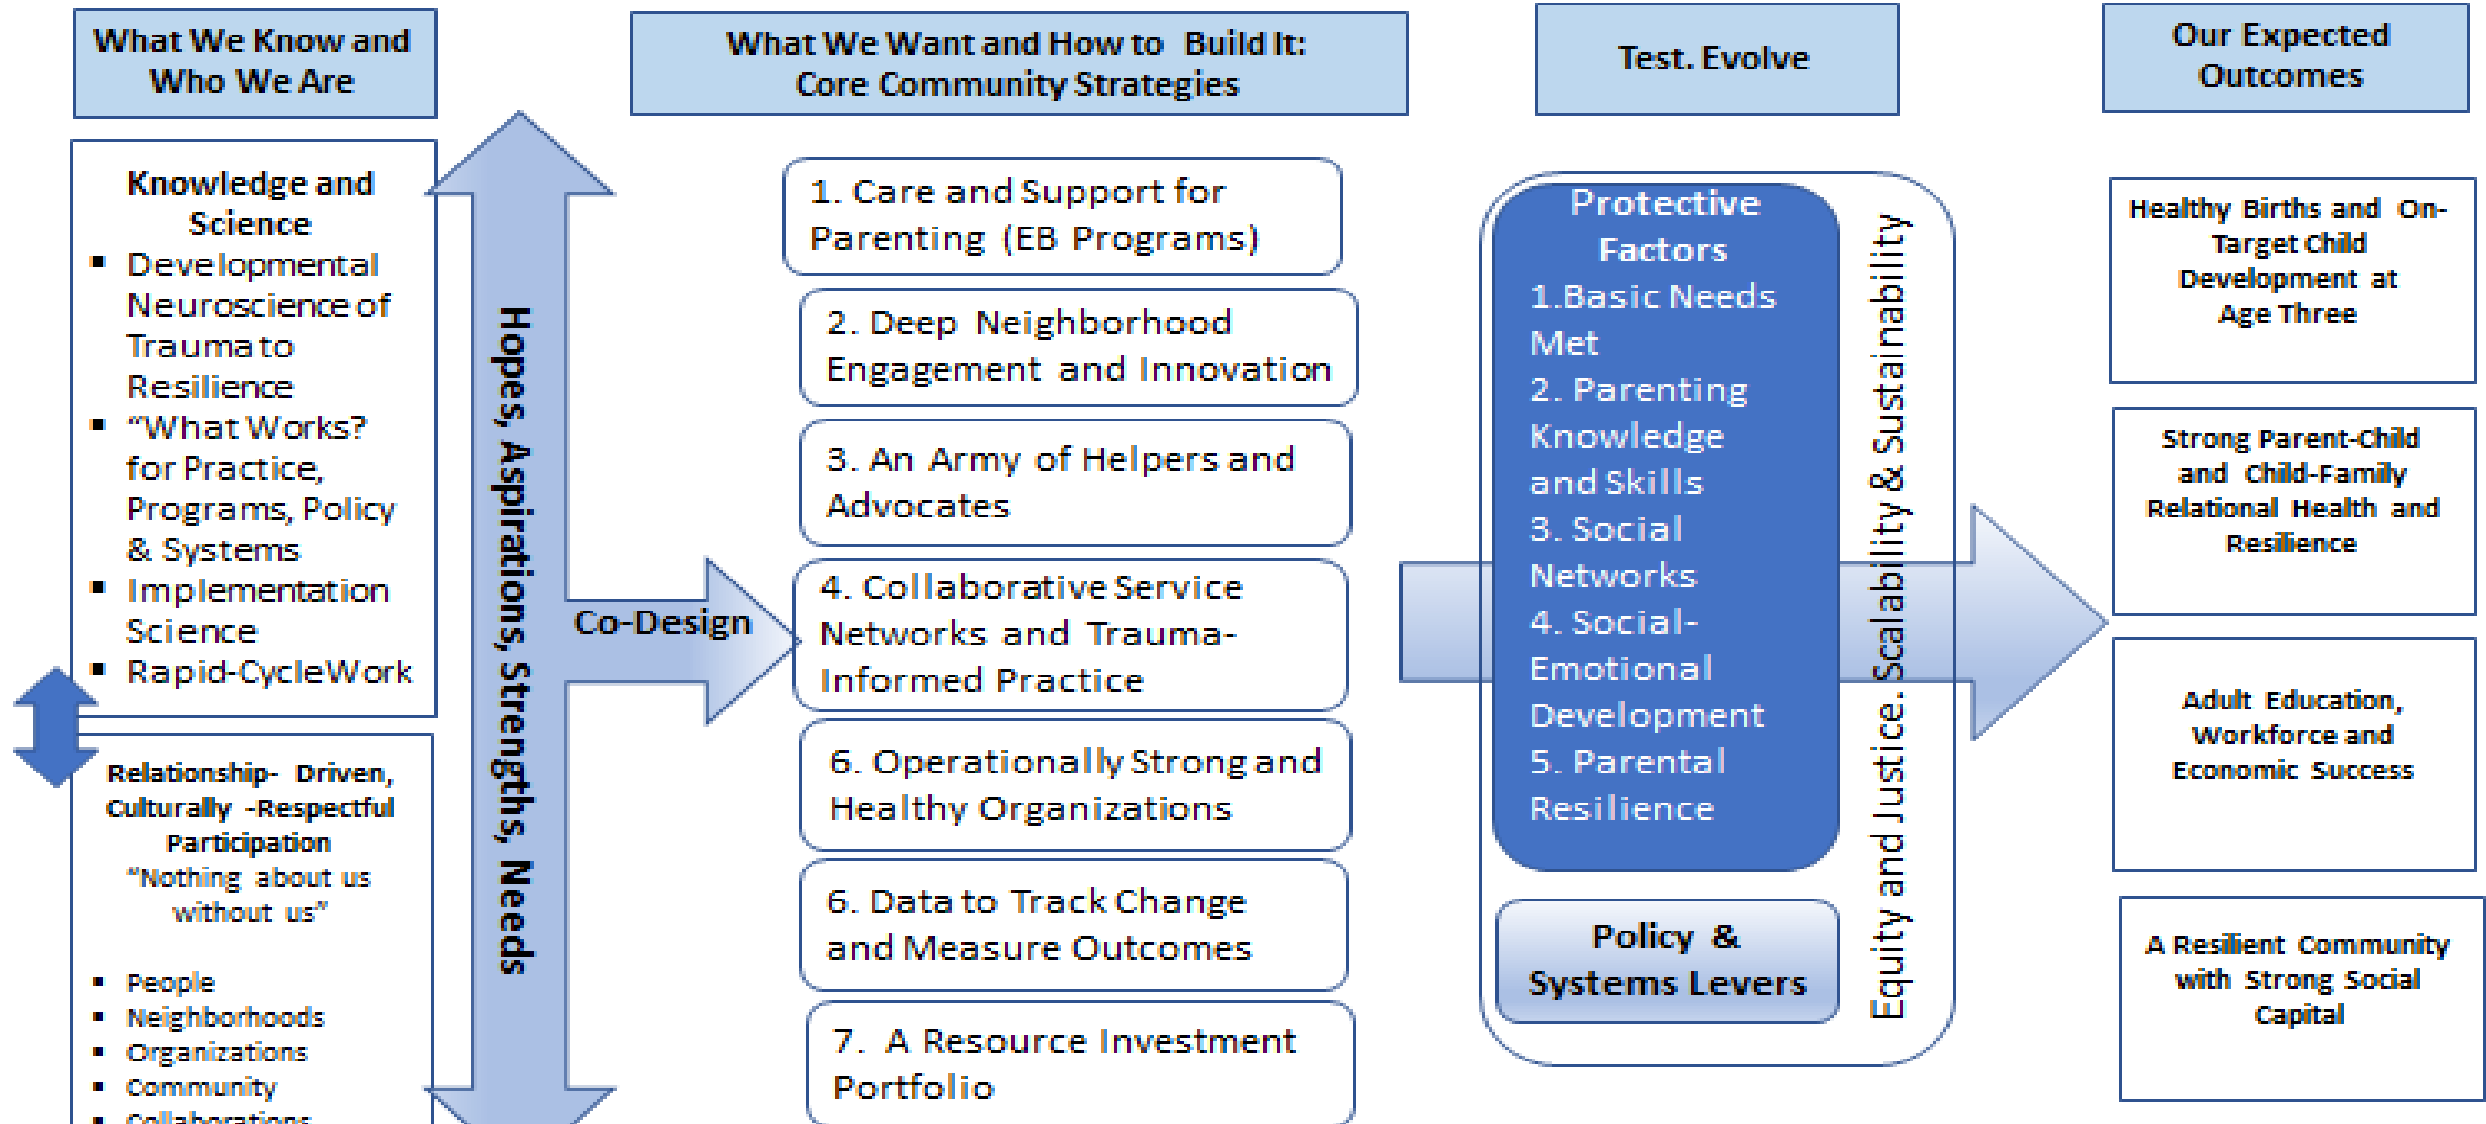

...All babies and their moms experienced a healthy and supported pregnancy and birth...

...All families, caregivers and neighborhoods were safe, supported, thriving and resilient...

...All children are healthy and on-target developmentally at three...

DC Health Matters Collaborative

Vision: One healthy and thriving capital city that holds the same promise for all residents regardless of where they live.

**part of core team*

Our Values

Dedication

We are committed to improving community health. In for the long haul.

Partnership

We collaborate. We are open to hearing all voices.

Optimism

We believe meaningful improvements in health outcomes are possible.

Accountability

We are reliable. We say what we will do, then do what we say.

Creativity

We use groundbreaking ideas informed by evidence-based practices to improve health outcomes.

Inclusiveness

We are intentional about health outcomes for all populations. No exceptions.

FAMILY HEALTH AND WELL-BEING

SYSTEMS CHANGE AND COLLABORATION

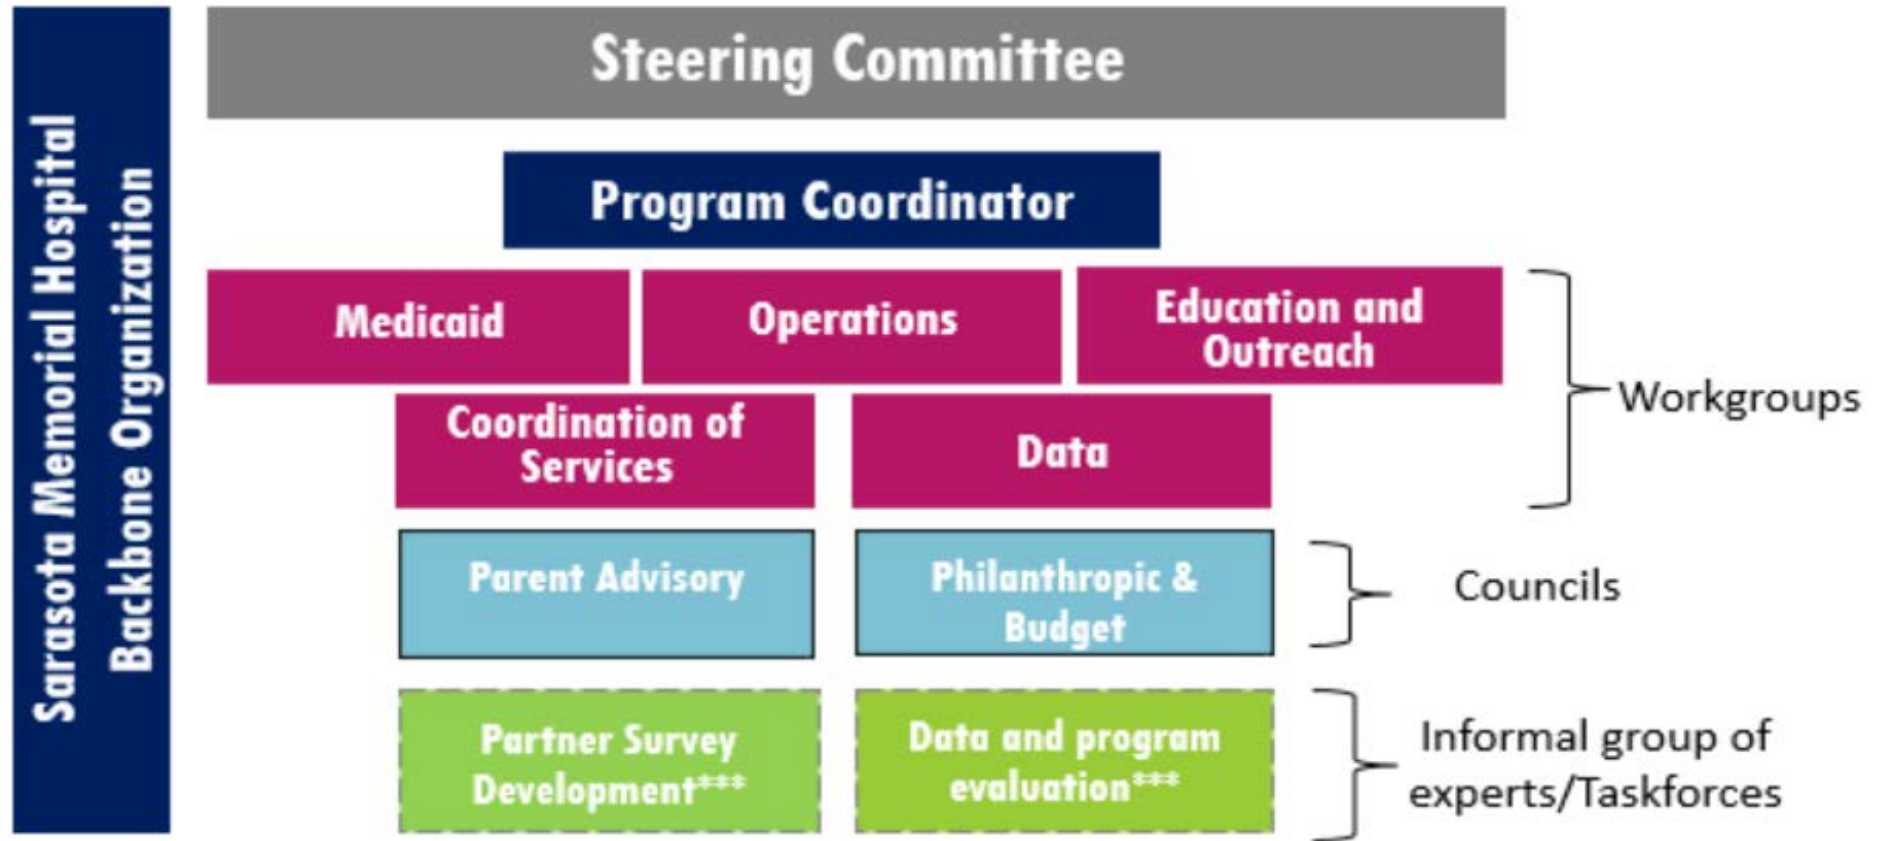

Science to Policy and Practice

Three Principles to Improve Outcomes for Children and Families

These principles, grounded in science, can guide policymakers and program developers as they design and adapt policies and programs to improve outcomes for children and families.

Ventura County Children Thrive

Ventura, CA

2020 Integrator Learning Lab: Team Introductions

Ventura County Children Thrive -- Ventura County, CA

www.first5ventura.org

Vision / Focus

Build a **system** of care for improving the **health** and **developmental outcomes** for children **birth to 5**; and assist **families** in supporting their children's healthy development.

Ventura County

- *Population: 849,738*
- *Under age 5: 6.1%*
- *Median household Income: \$78, 593*
- *Race Origin:*
 - *White: 45%*
 - *Hispanic or Latino: 43%*
 - *Asian: 7.9%*
 - *Black or African American: 2.4%*
 - *American Indian: 1.9%*

Primary Goals

Jointly develop a pilot that would leverage Medi-Cal/Medicaid and CHIP

- A continuum of screening to identify needs in areas that affect children's health and development including physical, social-emotional and behavioral development, adverse childhood experiences, and social determinants.
 - Differentiated levels of care coordination/case management that responds to risks identified at levels of intensity reflecting child and family needs.
 - Other population health responses that address children's developmental risks and needs (e.g. Parent and Child Together Classes, parent engagement and empowerment activities).
